Introduction to environmental engineering textbooks buy textbooks Agriculture - Textbooks on Animal Science Environmental Engineering Textbooks Summary Author Bio Table Content Digital Rights October 1997-No school address or affiliation. Mackenzie L. Davis, Ph.D., P.E., BCEE, is Professor emeritus of environmental engineering at the University of Michigan. He earned all degrees from the University of Illinois. From 1968 to 1971, he served as a captain in the U.S. Army Corps of Health. During his military service, he conducted air pollution surveys at army ammunition factories. From 1971 to 1973, he was Chief of the Environmental Engineering Division at the U.S. Army Construction Engineering Research Laboratory. His responsibilities included overseeing research into air, noise and water pollution, as well as solid waste management at army installations. In 1973, he enrolled in the Faculty of Michigan State University. He has taught and conducted research on air pollution control and hazardous waste management. His honors and awards include a state-of-the-art award from ASCE, Head honorary member Chi Epsilon, Sigma Xi, election as a fellow in the Air management and waste management association, and election as a diplomat at the American Academy of Environmental Engineers with certification in hazardous waste management. He received awards for teaching from the American Society of Civil Engineers Student Chapter, Michigan State University Engineering College, North Central Division of the American Society of Engineering Education, Great Lakes Region Chi Epsilon, and Amoco Corporation. In 1998, he received the Liman A. Ripperon Award for Excellence as a Teacher with the Air and Waste Management Association. In 2007, he was recognized as educational specialist of the year by the Michigan Water Environment Association. He is a registered professional engineer in Michigan. Dr. Davis is the author of the student and professional publication Water and Wastewater Engineering and co-author of An Introduction to Environmental Engineering with Dr. David Cornwell. In 2003, Dr. Davis retired from Michigan State University. Students, we are committed to providing you with high quality course solutions with the support of excellent service and a team that cares about your success. See the tabs below to explore options and prices. Do not forget that we accept financial aid and scholarship funds in the form of credit or debit cards. introduction to environmental engineering davis and cornwell 5th edition 2013. introduction to environmental engineering 5th edition davis pdf
