Dragon Ball Legends MOD APK will help you have superpowers in this great game. Download the game and kill the enemy in a shot! If you want to play or test more, try Dragon Ball: Dokkan Battle MOD! Table contentDragon Ball is an animated film, a comic book associated with the childhood of many generations. Do you like this famous manga? Have you ever wanted to have the same power as Son Goku, Piccolo? Translated from the film, the game was first presented at the GDC conference. There are quite a few Dragon Ball games, but there are very few really attractive games that appeal to a lot of players. If you think Dragon Ball Fighter is the best game, then perhaps Dragon Ball Legends will change its mind. The plot follows the original story of the Longon Ball Legends storyline followed by the original story. Cartoon tells the adventures of Songoku and his friends who are looking for Dragon Ball. Along the way, he constantly rehearsed to be stronger, while at the same time punishing bad people. After all, he's a fighter protecting the world from destruction. The game is similar to one game Bandai, One Piece: Bounty Rush. In the game you will become a dragon ball character, take part in adventures and fight with other players. A lot of danger awaits you at the front. You have to destroy all the enemies to win. You have to master the skills of the character, well combined to be the strongest. Have you ever thought that you could use Kame hame ha? You don't have to imagine any more. Dragon Ball Legends will help you make your dream come true. Characters of the system You will be able to meet with childhood characters like Son Goku, Frieze, Son Gohan, Vegeta, Piccolo, Creeline, Yamcha, Cell ... and more. Each character has a unique skill. You have to pay attention to the HP character to find out how much your character can withstand. In the past, I loved Piccolo's character. I will definitely choose Piccolo by playing Dragon Ball Legends. In particular, in the trailer we also see a mysterious character. I can only guess that he has Sayan's pedigree because of his hair, his armor. It is assumed that this character could become Yamashi, the first Sayan who turned into Super Sayan. He is a legend of this people. There is no confirmation from Banco about this character. Let's wait and see what role this character plays? The game control mechanism is relatively simple, optimized for mobile devices, tablets. You can easily get used to it, but it's hard to become a master. Dragon Ball Legends has two main modes, offline and PvP. Unlike other games, the skill of the game is unlocked by a card system that allows you to combine many different skills. The publisher of GraphicsBandai Namco has never disappointed the player because of the graphics. The game has a clear, beautiful 3D design. Bright colors. Characters have the form of the original. You will feel like watching a Dragon Ball animated movie while playing the game. Sound of Legends Dragon Dragon also carefully cared for. Characters are voiced relatively standard, with many familiar voices in the film. Dragon Ball Legends MOD APK VersionFor such a hot game as DBL, the existence of the MOD version was beyond imagination. It's also a quality version of MOD. MOD FeaturesOne Hit1 Kill Win All subques have been completedAs set to set up APK (Bypass) You need to install the APK Bypass to complete the game tutorial.
